

DATASHEET

inPoint CSS Content Server

Secure access to documents
via FIS/edc (invoice monitor)

H&S Information Architects has been an FIS Information Systems partner for more than 5 years and have extensive knowledge and project experience for more than 30 years. H&S are located in Vienna, Austria (Headquarters) and Schwabach (Germany).

The inPoint Content Server CSS for SAP Business Solutions provides a secure access to documents via FIS/edc (invoice monitor) as well as additional monitors (i.e.. document monitor, order confirmation monitor, sales order monitor).

FIS possesses great experience as a certified SAP specialist and has convinced various industries with its own solutions over the years. With high-quality and made-to-measure solutions, FIS helps companies in all industries and of all sizes to overcome the challenges of the increasing digitization of the business environment. While doing this, FIS follows clearly defined values and guiding principles that should also convince you as an existing or new customer.

inPoint CSS Content Server - Secure access to documents via FIS/edc (invoice monitor)

The diagram illustrates the InPoint workflow process, which is divided into four main stages:

- Document Import:** This stage shows various input sources for documents, including an email icon, a PDF/A-3 Inkl. XML file, a ZUGFeRD file, a laptop icon, and an XML file.
- FIS/fci – Process (OCR):** This stage involves the processing of documents through three steps: **Recognise**, **Analyse**, and **Complete**.
- Conversion to IDocs:** The processed documents are converted into IDocs, represented by a gear icon.
- FIS/edc SAP:** This stage involves the integration of IDocs with SAP, showing three steps: **Filing**, **Posting or Parking**, and **Approval**. Below these steps is the **InPoint Content Server Archive**.

A large curved arrow on the right side of the diagram indicates the **Workflows** connecting the stages. At the bottom, a bar lists the types of documents processed: **Invoices**, **Sales Orders**, **Vendor Statements**, **Payment Advice Notes**, and **General Documents**.
